The Learning Center

The Learning Center is a non-profit, state licensed, private school and child care center, that provides an educational alternative in the Bradford area.

Since 1984, TLC has addressed the academic and social needs of children in a non-competitive, supportive, and stimulating environment. Children are encouraged to work up to their ability, to develop good problem solving skills, and to be independent learners.

Socially, TLC believes that children will develop self-confidence through positive interaction. They are taught respect for others and to become responsible for their actions.

TLC is committed to integrating parents into the educational process.

TLC admits students of any sex, race, color, creed, national or ethnic origin without discrimination.
